#### Current Limitations

- 1 If the customer is using 984LL and will not convert manually over to IEC programming then they need to purchase a Level 4 or higher M580.
- 2 If the customer has remote IO and it is Quantum remote IO then the CPU needs to be a Level 4 or higher CPU.
- 3 The customer needs to make sure that if they have X80 remote IO that they chose an M580 that ends with a 40 designation, like BMEP584040

**Purchase Orders should be made out for the Exchange Invoice Amount of the new part being shipped.**

**A partial credit will be issued as long as the part that is being returned, is returned within 45 days of the receipt of the new part.**

**PREMIUM M580 UPGRADE (US\$)**
